Re: Quincy Medical Group Hospital, Project #20-044

Ladies and Gentlemen

My name is Richard McNay, I'm president of McNay Truck Line which employs about 150 people and naturally I provide health insurance for those employees. I also have been a member of the Quincy School for eight years and serve as finance chairman. The school district insures over a thousand employees and their families.

I truly support the construction of a twenty five bed hospital by Quincy Medical Group in Quincy Illinois. I believe it will create more competition and choices for the Quincy area residents and will help keep medical costs down. Competition is a good thing, it drives creativity and excellence.

Please approve the construction of the twenty five bed Quincy Medical Group Hospital.

Sincerely,
Richard McNay
President
McNay Truck Line
