RE: Quincy Medical Group Hospital, Project #20-244

DATE: April 6, 2022

Dear Ms. Simmons,

I am writing in support of the Quincy Medical Group (QMG) Hospital because, as a member of this community, I believe the QMG Hospital will offer a better choice in health care services.

As a resident, and as a patient, I have first-hand experience with the QMG team. From nurses to physicians and surgeons, the health care providers at QMG put the patient first. This patient focus provides an exceptional health care experience at a lower cost than other alternatives.

Additionally, as a regional health care hub, our community needs this hospital. QMG looks for innovative ways to deliver health care services in the most cost-efficient, most effective, and most convenient manner possible. I believe the QMG Hospital will give members of our community exceptional patient care at a time when choice is needed.

**Please VOTE YES to approve the QMG Hospital, Project #20-244.**

Sincerely,

A handwritten signature in cursive script that reads "Linda K. Moore".

Additional Comments: I had a friend that was at dialysis + became

make it. He ended up in the  
ICU + is doing a little better.  
If they would have done  
things right the first visit  
to the ER he might not  
have needed to be admitted.  
I wish we would have  
had another option for  
better treatment. →

I believe that if we had another option that either facility would up their game. I know that they are busy but patient care should be priority.

Another instance happend last summer 86 year old woman went to ER with a large gash on her leg. She is on a blood thinner, so you can imagine the blood loss she had. She was there it seems like forever. When she is finally done they ask her if she would like a wheelchair + of course being 86 + stubborn she says no. Well as she is walking out her bandage falls to the floor, no wound care instructions, she got lightheaded + dizzy so she had to sit + I got her a wheelchair + wheeled her out myself. I know it's a money making business, but I am a huge believer that the patient should be top priority. Without the patient there would be no need for ER or hospital services.

Thank you!
