RE: Carle Danville CON Applications (Projects #20-047 and #20-048)

Dear Chair Savage,

Please let this letter serve as my full support of Carle Health's applications for Certificates of Need (CON) for consolidation of healthcare services in the Danville community.

As State Representative for the 104th District, it's a privilege to serve the 81,000-plus residents of Vermilion County. My goal has always been focused on what's best for our county and to advocate for opportunities that allow our area to thrive. It is with that in mind that I support Carle's redevelopment plans for its ambulatory services medical campus in Danville.

Carle and its physicians have been part of the Vermilion County community for more than 35 years and the organization's dedication to serving the health needs of our residents has been exceptional. Many Vermilion County residents struggle with health conditions and every member of our community deserves to receive quality care close to home. The new Carle multi-disciplinary campus will maximize medical resources, providing that opportunity.

In addition to the healthcare benefits to our community, Carle's planned facility will revitalize the downtown Danville area, spurring economic and community development which has a direct correlation to improving social determinants of health. Carle's proposal to consolidate healthcare services supports addressing issues that impact their health and well-being.

Vermilion County residents deserve opportunities to live in a thriving community and Carle's multi-purpose facility will provide the technology-advanced care in modern amenities right here in our community.

It is for these reasons that I support Carle's CON applications for consolidation of healthcare services in Danville.

Sincerely,

A handwritten signature in cursive script that reads "Mike Marron".

Mike Marron
State Representative – 104th District
