Ms. Debra Savage, Chair  
Illinois Health Facilities and Services Review Board  
525 W. Jefferson, Second Floor  
Springfield, IL 62761

RE: Carle Danville CON Applications (Projects #20-047 and #20-048)

Dear Ms. Savage,

Please let this letter serve as my written support of Carle Health's applications for Certificate of Need (CON) to expand healthcare services in the Danville community.

I serve as a member of the United States House of Representatives from Illinois' 15<sup>th</sup> Congressional District, serving Vermilion County and Danville. One of my goals in this capacity is to support projects that benefit economic growth in the district. Carle's planned multi-use medical campus which will replace its current facilities in Danville will do just that.

The economic benefits of this new development will re-energize the downtown area and grow job opportunities. This is one of the largest investments in Danville in 50 years and is anticipated to generate future possibilities for community residents.

In addition, Vermilion County has many indicators of health care access issues with some of the lowest overall health rankings in the state. This multi-use medical campus will provide enhanced access to healthcare services close to home.

I support this Danville medical facility project that I believe will positively impact the health and well-being of the Vermilion County community.

Sincerely,

Mary Miller  
United States Congresswoman
