Re: Winchester Surgery Center Proj. No. 21-007

Dear Mr. Constantino:

Pursuant to Section 1130.760 of the Illinois Health Facilities and Services Review Board ("HFSRB") rules, I am writing on behalf of Winchester Ambulatory Surgery Center, LLC (the "Permit Holder") to submit the annual progress report for Winchester Ambulatory Surgery Center. As you are aware, the Permit Holder has a certificate of need permit to establish a limited specialty ambulatory surgical treatment center (the "Project"). The Permit Holder submits the following information regarding the progress of Project.

The Project is substantially complete – modifications to the surgery center are complete and equipment purchased. The Permit Holder anticipates filing its ambulatory surgical treatment center license application with the Illinois Department of Public Health by December 1, 2022. Based on prior experience, the Permit Holders anticipate it may take several months for licensure; however, they anticipate Project completion will occur prior to March 31, 2023.

To date, the Permit Holders have expended \$237,061.27 on the Project.

If you need any additional information or have any questions regarding the status of the Project, please feel free to contact me.

Sincerely,

Anne M. Cooper
