Subject: [External] The sale of land at Weiss Hospital Uptown
Date: Monday, May 16, 2022 1:10:35 PM

Dear Review Board

I am writing to ask the Review Board to not approve the sale of Weiss Hospital and their parking facility until many questions about Resilience and who they are along with their qualifications and commitments to maintaining and expanding Weiss as a Community Hospital are met. I am opposed to this deal going forward without Resilience buying back the parking lot.

I am deeply opposed to the hospital parking lot being used as a profit venture for private developers to build luxury condominiums, as it is a key expansion space for the hospital, and one that had been used for services during surges in the spread of Covid-19, and perhaps future pandemics.

I am concerned that the Review Board would approve the sale of a hospital facility to individual private investors, who have no previous experience owning and maintaining a hospital. We insist that we need to have more information about these potential owners publicly available.

Sincerely

Criage Lynnette Althage
