Re: Support for Change of Ownership of Gateway
Regional Medical Center to American Health Systems

Dear Chairwoman Savage:

As board president of Gateway Regional Medical Center, I respectfully write in support of the change of ownership application referenced above. Gateway Regional Medical Center ("Gateway") is vitally important to Granite City and the surrounding area.

American Healthcare Systems ("AHS") has a record of acquiring/managing under-performing hospitals and increasing healthcare services, while preserving existing staff. That has been its history, I have been advised, with its two other hospitals: Randolph Health Hospital in Asheboro, NC, and South City Hospital in St. Louis, MO. The Chairman and Chief Executive Officer of AHS, Mr. Michael Sarian, MBA, PLD, has expressed his intention to do the exact same with Gateway – retain existing staff and expand services. Mr. Sarian has also committed to investing in additional medical resources for Gateway and to establishing a governing board for Gateway that includes leading members of the local community.

Thank you for your consideration of my comments on this proposed change of ownership.

Respectfully submitted,

Rosemarie Brown

Gateway Regional Medical Center Board President

Cc: John P. Kniery, HFSRB Administrator
