Mr. John Kniery

Illinois Health Facilities and Services Review Board

535 West Jefferson Street, 2<sup>nd</sup> Floor

Springfield, IL 62761

Dear Mr. Kniery,

Maryville is a member of the community served by Advocate Lutheran General. Advocate Lutheran General is known for their high standard of care and the modernization project planned for the Center for Advanced Care is an example of the hospital leadership looking at their current facilities and operations and seeing how they can improve the care for all users. Our neighbors in the Des Plaines area will receive the benefit of the changes, continuing to receive exceptional care in a convenient location.

When we are in the community at events and business meetings, representatives of Advocate are always there, sponsoring and giving back to the community. Youth in our programs have been educated by those presenting, often in their native tongue, which makes it even more welcoming. We hope our youth never need to realize the benefits of the Center for Advanced Care but many of our staff have. While the facility as is is very welcoming, the enhancements to centralize care so patients do not have to move between floors, especially when immunocompromised, are appreciated. To provide greater privacy for patients and improve functionality of the services offered will create a better patient experience for all who choose Advocate Lutheran General for their healthcare needs.

On behalf of Maryville and our staff, I encourage the Illinois Health Facilities and Services Review Board to approve Advocate Lutheran General's Center for Advanced Care's modernization project.

Peace and all good,

*Sister Catherine M. Ryan O.S.F.*

Sr. Catherine M. Ryan, O.S.F.

Executive Director
