Narrative Description

In the space below, provide a brief narrative description of the project. Explain **WHAT** is to be done in **State Board defined terms**, **NOT WHY** it is being done. If the project site does NOT have a street address, include a legal description of the site. Include the rationale regarding the project's classification as substantive or non-substantive.

This project proposes to discontinue the Open Heart Surgery Category of Service at Endeavor Health Clinical Operations d/b/a Evanston Hospital ("Evanston Hospital"), located at 2650 Ridge Avenue, Evanston, Illinois 60201. In connection with this plan, Evanston Hospital's open heart surgery cases will shift to Endeavor Health Clinical Operations d/b/a Glenbrook Hospital ("Glenbrook Hospital"). Both Evanston Hospital and Glenbrook Hospital are owned and operated by Endeavor Health Clinical Operations ("Endeavor Health") and are located less than ten miles apart. Since the two hospitals are integrated and utilize a common medical record, clinical staff at either facility will be able to access and utilize patients' medical records. Further, patient access, care coordination, referral and scheduling will all transition seamlessly.

Endeavor Health plans to centralize its open heart surgery activity at Glenbrook Hospital, which has obtained a Certificate of Need permit (#21-016) to establish an open heart surgery category of service. The discontinuation of Evanston Hospital's Open Heart Surgery Category of Service will occur within approximately six months of the opening of Glenbrook Hospital's open heart surgery program. This opening is anticipated to occur by April 30, 2024 but is dependent on the completion of all the typical milestones associated with building construction, equipment installation and completion of occupancy surveys.

The project is exempt from requiring a CON permit and eligible for a COE under 77 Ill. Adm. Code 1130.410(b).

Project Status and Completion Schedules

Outstanding Permits: Does the facility have any projects for which the State Board issued a permit that is not complete? Yes ___ No x . If yes, indicate the projects by project number and whether the project will be complete when the exemption that is the subject of this application is complete.

Anticipated exemption completion date (refer to Part 1130.570): The discontinuation of Evanston Hospital's Open Heart Surgery Category of Service will occur within approximately six months the opening of Glenbrook Hospital's open heart surgery program. This opening is anticipated to occur by April 30, 2024 but is dependent on the completion of all the typical milestones associated with building construction, equipment installation and completion of occupancy surveys.

Attachment 6
Reasons for discontinuation

The applicant shall state the reasons for the discontinuation and provide data that verifies the need for the proposed action. See criterion 1110.130(b) for examples.

Evanston Hospital will discontinue its Open Heart Surgery Category of Service as part of Endeavor Health's multi-campus hospital service line realignment plan. Pursuant to Permit #21-016, Glenbrook Hospital's state-of-the-art Cardiovascular Institute is nearing completion. As detailed within that application, Evanston Hospital's open heart surgery cases will shift to Glenbrook Hospital upon the establishment of its Open Heart Surgery program. Doing so will facilitate quality, efficiency and patient and physician satisfaction.

Both Evanston Hospital and Glenbrook Hospital are owned and operated by Endeavor Health and are located less than ten miles apart. Since the two hospitals are integrated and utilize a common electronic medical record, clinical staff at either facility will be able to access and utilize patients' medical records. Further, patient access, care coordination, referral and scheduling will all transition seamlessly.

Attachment 7
Impact on Access

1. **Document whether or not the discontinuation will have an adverse effect upon access to care for residents of the facility's market area.**

Access to care will not be adversely affected and combining smaller programs is likely to have a positive correlation to optimal outcomes. In connection with this plan, Evanston Hospital's open heart surgery cases will shift to Glenbrook Hospital. Both Evanston Hospital and Glenbrook Hospital are owned and operated by Endeavor Health and are located less than ten miles apart. Since the two hospitals are integrated and utilize a common electronic medical record, clinical staff at either facility will be able to access and utilize patients' medical records. Also, notably patients can be stabilized and transferred safely to complete an open heart procedure at another location.

2. **Provide copies of notification letters sent to other resources or health care facilities that provide the same services as those proposed for discontinuation. The notification letter must include at least the anticipated date of discontinuation and the total number of patients that received care or the number of treatments provided during the latest 24 months.**

Re: Notice of Planned COE Application for Discontinuation of Open Heart Surgery Program

Dear Administrator:

Evanston Hospital, part of Endeavor Health, is in the process of preparing a certificate of exemption application for submission to the Illinois Health Facilities and Services Review Board ("HFSRB") for the closure of the open heart surgery category of service at Evanston Hospital. In connection with this plan, Evanston Hospital's open heart surgery cases will shift to Glenbrook Hospital within the broader Endeavor Health system, as both Evanston Hospital and Glenbrook Hospital are owned and operated by Endeavor Health and are located less than 10 miles apart. Since the two hospitals utilize a common medical record, patient access, care coordination, referral and scheduling will all transition seamlessly.

In accordance with applicable HFSRB rules, we are notifying hospitals with similar programs in the area to advise each program of these plans, so each provider may assess whether it believes these plans will impact its program. As these plans are an internal re-organization of services, we do not believe they will impact your program; however, you are receiving this letter based on HFSRB requirements because your hospital is located within a certain proximity of Evanston Hospital.

The closure is expected to occur within approximately six months of the opening of Glenbrook Hospital's open heart program, which is expected in April 2024 but is dependent on the completion of all the typical milestones associated with building construction, equipment installation and completion of occupancy surveys. For your information, Evanston Hospital performed 149 and 150 cardiac surgeries in 2021 and 2022, respectively. The caseload of the program is expected to be accommodated in its entirety at Glenbrook Hospital going forward.

If you have any questions about Endeavor Health's plans, please feel free to contact Jesse Peterson Hall at 847-657-5601.

Attachment 9
Safety Net Impact Statement

1. The project's material impact, if any, on essential safety net services in the community, to the extent that it is feasible for an applicant to have such knowledge.

Safety net services in the community will not be affected. In connection with this plan, Evanston Hospital's open heart surgery cases will shift to Glenbrook Hospital. Both Evanston Hospital and Glenbrook Hospital are owned and operated by Endeavor Health and are located less than ten miles apart. Since the two hospitals are integrated and utilize a common electronic medical record, clinical staff at either facility will be able to access and utilize patients' medical records. Further, patient access, care coordination, referral and scheduling will all transition seamlessly.

2. The project's impact on the ability of another provider or health care system to cross-subsidize safety net services, if reasonably known to the applicant.

The closure of the open heart surgery Category of Service at Evanston Hospital will result in a shift of patient volumes from one Endeavor Health hospital to another Endeavor Health hospital and will not affect other area providers in any way including their ability to cross-subsidize safety net services.

3. How the discontinuation of a service might impact the remaining safety net providers in a given community, if reasonably known by the applicant.

As noted above, the closure of the open heart surgery Category of Service at Evanston Hospital will result in a shift of patient volumes from one Endeavor Health hospital to another Endeavor Health hospital and will not affect other area safety net providers in any way.
