The fair market value of the asset to be transferred is the purchase price identified in the response to Criterion 1130.520(b)(1)(G).

## Criterion 1130.520(b)(1)(G) The purchase price or other forms of consideration to be provided for those assets

The purchase price for the entire transaction (nine hospitals and applicable interests in two ASTCs) was arrived at through negotiations between the two parties. The purchase prices assigned to the various facilities, for purposes of this COE application, were determined based on net revenue for the twelve-month period ending March 31, 2024, with the net revenue of the ASTCs adjusted for the ownership interests held by Ascension. Based on that process, a purchase price of \$28,831,711 has been allocated to the hospital. Please note, as is customary with transactions of this type, the consideration agreed upon at or immediately prior to closing may be adjusted based on a variety of factors such as the value of inventory on hand upon closing.

With the signatures on the certification pages of this Certificate of Exemption ("COE") application, the applicants affirm that it is anticipated by the applicants that each of the above-identified projects will be completed following the completion of the change of ownership transaction, and in accordance with all applicable provisions of Section 1130.

Criterion 1130.520(b)(3) If the ownership change is for a hospital, affirmation that the facility will not adopt a more restrictive charity care policy than the charity care policy that was in effect one year prior to the transaction. The hospital must provide affirmation that the compliant charity care policy will remain in effect for a two-year period following the change of ownership transaction.

No changes to the charity care policy currently in effect are anticipated; and with the signatures on the applicable certification page of this COE application, applicant Prime affirms that the current charity care policy will remain in effect for, at minimum, a two-year period following the change of ownership transaction.

A copy of the charity care policy that was in effect one year prior to the filing of this Certificate of Exemption application will be made available to HFSRB staff upon request.

## Criterion 1130.520(b)(4) A statement as to the anticipated benefits of the proposed changes in ownership to the community

Criterion 1130.520(b)(5) The anticipated or potential cost savings, if any, that will result for the community and facility because of the change in ownership.

To date, no anticipated savings have been quantified by the applicants.

# Criterion 1130.520(b)(6) A description of the facility's quality improvement mechanism that will be utilized to ensure quality control.

Both PHF and Ascension place great importance in quality control, and implement best practice models through their individual facilities. Quality improvement mechanisms at the facility will not initially change, but will be evaluated against parallel programs used in Prime facilities, with

adjustments being made as appropriate to enhance clinical and non-clinical opportunities for improvement.

Due to the size of the facility's quality assurance plan, a copy of the plan will be made available to HFSRB staff upon request.

## Criterion 1130.520(b)(7) A description of the selection process that the acquiring entity will use to select the facility's governing body

The hospital's governing board structure will continue similar to that currently in place, with the appointment of 9-13 board members by the Prime Corporate Board, composed of community leaders, physicians and facility administration.

# Criterion 1130.520(b)(9) A description or summary of any proposed changes to the scope of services or levels of care currently provided at the facility that are anticipated to occur within 24 months after acquisition.

This COE application is limited to the acquisition (or in the case of an ASTC, the acquisition of a controlling ownership interest) in one of the eleven Illinois licensed health care facilities proposed to be acquired from Ascension by Prime Healthcare Services, Inc. or PHF. While there may be a need or desire for some changes in the services provided in the future or the manner in which services are provided because of financial conditions in the health care industry, or other factors, at this time, no changes to the scope of services or the levels of care provided at the facility are currently anticipated to occur within 24 months of the proposed transaction. During the proposed licensee's first 12-18 months of control, hospital/ASTC-wide assessments of each clinical and non-clinical service provided will be undertaken with the potential existing of decisions being made to modify the scope of or manner in which certain services are provided at the facility, the addition of services, or the discontinuation of services at the facility. Should such a decision(s) be made, and as applicable, all requirements of the HFSRB and IDPH will be complied with.
