E-023-24

Hello.

My name is Julie Mirostaw and I serve as the chief advocacy officer for Ascension Illinois.

I would like to start by thanking the Illinois Health Facilities Services and Review Board for the opportunity to speak to you on behalf of our Ascension Illinois hospitals. I'm happy to be here to share with you how we came to the decision to transfer ownership of nine of our fourteen hospitals to Prime Healthcare. In order to ensure our Mission of serving those most vulnerable continues to flourish, we continually explore new options to best serve our communities as we adapt to the rapidly changing healthcare environment.

After thorough due diligence, a values compatibility assessment and an ethics discernment process, Ascension selected Prime Healthcare as the best steward of these facilities for the future. Prime Healthcare is well-positioned to serve our communities through an integrated care delivery system to ensure that the greater Chicago area has sustainable, quality healthcare access for generations to come.

Saving hospitals. Saving jobs. Saving lives.

Prime Healthcare Introductory Remarks

Oct. 1st, 2024

Ascension Resurrection-Chicago

STEVE ALEMAN
E-023-24

Prime Healthcare considers it an honor and tremendous responsibility to have been selected by Ascension Health as the stewards of its Illinois facilities, their employees and patients, and their combined legacy of service to their communities.

Prime Healthcare was founded in 2001 with a mission of saving, improving and investing in community hospitals. We have since delivered on that mission, growing into an integrated delivery system including 44 hospitals in 14 states, more than 300 outpatient locations, and nearly 45,000 employees and physicians. We are excited to welcome the Ascension facilities into our Prime Healthcare family, and we strongly believe we are uniquely positioned to serve these hospitals and their communities to ensure that the greater Chicago area continues to have sustainable, quality healthcare access far into the future. We have done this for communities across the nation, and are confident we can deliver for the residents of Chicagoland and beyond.

It is Prime Healthcare's unwavering dedication to providing compassionate, quality care, building value, preserving access and improving health outcomes that allows Prime to consistently be nationally ranked among the best hospital systems in the nation. Prime Healthcare has been named a Top 10 and Top 15 Health System by Truven Health Analytics. Our hospitals have been named among the nation's "100 Top Hospitals" 69 times and have received more Patient Safety Excellence Awards from Healthgrades than any other health system in the past eight years. In 2023 alone we received more than 500 clinical quality awards from national organizations such as The Leapfrog Group, US News and World Report, and many more. Prime has also been recognized as a Top 10 Health System in the Nation by the Lown Institute, with A grades for Health Equity, Social Responsibility, Patient and Clinical Outcomes, and Inclusivity. Prime Healthcare is not only bringing this commitment to quality and health equity to the Ascension Illinois facilities. We have also committed to investing \$250 million dollars in the Ascension facilities to fund capital improvements, including substantial technology investments and system upgrades, as well as hiring all of the acquired facilities' workforce, subject to Prime's standard hiring practices, policies, and titles.

Prime Healthcare has also committed to continuing all services at Ascension and, pending our internal review, hope to expand services based on community needs. We have also committed to maintaining levels of charity care and continuing existing charity care and community benefit programs, preserving these facilities' roles as valued community partners. This is not an exceptional commitment; it is what we do for all the communities we serve. In fact, Prime Healthcare has provided more than 12 billion dollars in charity care and community benefits since 2010 and nearly \$2 billion dollars in capital improvements since 2005 to transform hospitals and ensure health equity and care in communities across the country.

Since 2001, Prime Healthcare has also rescued various Catholic hospitals, respecting the traditions of these historic facilities while promoting the spiritual care and well being of all

Saving hospitals. Saving jobs. Saving lives.

members of the community, including the most vulnerable on the margins of society. We pledge to do this for the Ascension facilities as well.

I want to close with the words of our founder: "If you can see the potential for good, feel the impact of kindness on others, touch the spirit of a generous cause just a bit every day, then you have embarked on a noble path." This perfectly encapsulates the dedication to compassionate care and social responsibility at the heart of Prime Healthcare's mission. We look forward to sharing that dedication to caring and improving our communities with all the patients who depend on these hospitals and facilities for generations to come. Thank you.

Ascension

LEN WICK

Closing Comment

We thank the Board for providing us the opportunity to hear from our community today during this public hearing and look forward to appearing before the Board. Their support of this transfer of ownership preserves jobs and ensures needed healthcare access across Chicagoland, as well as investment in Illinois for the future.

Thank you.
