Dear Sirs,

I just wanted to write and say that I don't approve of the OSF St Elizabeth Hospital virtually being gutted, and cut the services down to nothing and being like a giant acute care office. We will have no ICU or OB services for our community of Ottawa!! You will be spending dollars on a useless facility that will not serve our community and cause hardship for those like me that are having restricted driving due to a muscle disorder. It would be a hardship for me to drive long distances to get treatment for either myself or a family Member.

Please keep our OB and ICU services please!

Diana Goetsch
