Dear Members of the Board,

I hope this letter finds you well. I am writing to offer my full support for the proposed development of the Mt. Zion Center for Surgery in Mt. Zion, IL. As we are all aware, rising healthcare costs are one of the most pressing challenges facing individuals, families, and businesses today. Access to affordable, quality healthcare is essential for the well-being of our community, yet many residents in Macon County face significant barriers due to the high cost and limited availability of medical services.

The establishment of an ASC in Mt. Zion would represent a big step toward addressing these challenges. An ASC is known for providing high-quality, outpatient surgical care at a fraction of the cost of traditional hospital-based services. This would not only reduce the financial burden on patients, but also improve the efficiency and accessibility of medical treatments for our community.

We, as a community, ask the board to support the development of the Mt. Zion Center for Surgery. This project will positively impact the lives of many, ensuring that our families, friends, and employees have access to the care they need, when they need it, and at a cost that is sustainable for all.

Regards,

Matt Walters
President
