Re: Support for UCMAH Bolingbrook Cardiac Cath Project No. 25-015

Dear Members of the Illinois Health Facilities and Services Review Board:

As Mayor of the Village of Bolingbrook, I am pleased to express my strong support for the proposed expansion of the Cardiac Catheterization Laboratory at UChicago Medicine AdventHealth Bolingbrook Hospital.

Bolingbrook is a dynamic and growing community, home to a diverse population that deserves access to exceptional healthcare close to home. UChicago Medicine AdventHealth Bolingbrook has long been a trusted partner in serving the health and wellness needs of our residents. The proposed Cath Lab expansion represents a critical investment in local health infrastructure that will enhance emergency cardiac care, reduce patient wait times, and allow for more timely and comprehensive treatment.

This project is especially important for the many residents in our community who face barriers to care—whether due to income, transportation, or other social determinants of health. The expansion will not only improve outcomes for heart-related conditions but also support broader community wellness by expanding access to vital procedures and diagnostics.

I respectfully urge the Illinois Health Facilities and Services Review Board to approve this important project. It will have a profound and lasting impact on the health and safety of our residents.

Thank you for your thoughtful consideration.

Sincerely,

Mary Alexander-Basta  
Mayor, Village of Bolingbrook
