Re: Permit 25-016
AdventHealth Hinsdale
Special Care Nursery Project

Dear Chairwoman Debra Savage:

I am writing to officially acknowledge the completion of Project 25-016, our AdventHealth Special Care Nursery project was substantially completed on July 16, and on August 28 we successfully passed the Illinois Department of Public Health inspection.

Although we are still finalizing the financial reconciliation, I am pleased to report that the project was completed favorably to budget.

We anticipated providing you with the identification of realized costs by 11.1.2025.

Please do not hesitate to contact me should you have any questions or if additional documentation is required.

Sincerely,

Kurt R Martz
UChicago Medicine | Adventhealth
