SAFETY NET IMPACT STATEMENT

1. The project's material impact, if any, on essential safety net services in the community, *including the impact on racial and health care disparities in the community*, to the extent that it is feasible for an applicant to have such knowledge.

No material impact on essential safety net services in the community, including the impact on racial and health care disparities, are known or anticipated given that the existing clinic will remain in operation, as an ASTC license is not required to provide the services that we currently do. In addition, as noted in Attachment 12, transitioning away from the ASTC designation allows us to streamline operations, reduce unnecessary overhead, and reinvest in the clinical and patient-centered priorities that align with our mission and meet all regulatory requirements for safe, high-quality care.

2. The project's impact on the ability of another provider or health care system to cross-subsidize safety net services, if reasonably known to the applicant.

For the reasons stated above under paragraph 1, the project will not adversely impact the ability of any other provider or health care system to cross-subsidize safety net services.

3. How the discontinuation of a facility or service might impact the remaining safety net providers in a given community, if reasonably known by the applicant.

For the reasons stated above under paragraph 1, the project will not adversely impact the safety net providers in the community.
