Dear Ms Savage,

I am writing in support of the new skilled care center being proposed in Champaign County by Advocates for Aging Care. This center, which proposes a 120-bed facility consisting of 10 cottages housing 12 persons in each cottage, sounds like the perfect standard that every skilled care facility should model itself after. It certainly is the type of community I would want my parents, or myself, to be able to reside in should the need arise.

Please approve the license request submitted by Advocates for Aging Care for this skilled care community in Champaign County.
