Greetings,

My name is Carol Inskeep and I live in Urbana, Illinois. I'm writing in support of the effort by Advocates for Aging Care (AAC) to bring a new senior living community to our area.

We desperately need more housing and skilled support for our seniors. My own mother lived at the Champaign County Nursing Home for 2 years. We desperately relied on their skilled staff and their ability to care for my mom. I feel such compassion for others who need alternatives and face the current situation in our community where there is such a severe lack of options.

The proposal by Advocates for Aging Care (AAC) is especially exciting because of its humane and personalized approach to care. Please support this proposal.

Thank you,

Carol Inskeep
606 E High St. / Urbana, IL
