Re: Notice of Temporary Suspension of Labor & Delivery Services

Dear Ms. Dominguez:

As Chief Executive Officer of Roseland Community Hospital, I am submitting advance notice of the temporary suspension of Labor & Delivery services pursuant to 77 Ill. Adm. Code 1130.240(d).

The suspension will begin at 12:00 a.m. on November 1, 2026, with October 31, 2026 serving as the final day of service. Services have not yet been suspended.

The temporary suspension is necessary because available funding, including State reimbursement and financial support, is insufficient to sustain Labor & Delivery services under current conditions. As a safety-net hospital serving an underserved community, Roseland cannot continue to absorb the service's operating funding gap without jeopardizing the financial stability of the Hospital and its ability to provide other essential services.

During the suspension, the Hospital will quantify the funding required to sustain Labor & Delivery and engage appropriate State officials regarding reimbursement adequacy and potential additional operating support. The Hospital will also evaluate supplemental funding opportunities and potential partnerships, and review whether a financially sustainable operating model can be established.

Beginning with the first 30-day reporting period following the suspension, the Hospital will reassess financial feasibility at 30-day intervals and submit progress reports documenting funding discussions, potential resources, and efforts to address the funding gap.

Reopening remains uncertain and will depend on securing sufficient, sustainable funding. No reopening date has been established, and the Hospital has not made a final decision to permanently discontinue the service. We request guidance on satisfying the reopening timetable requirement while financial feasibility remains under evaluation.

If a decision is made to permanently discontinue Labor & Delivery services, the Hospital will pursue the applicable HFSRB application and approval. Any continuation of the temporary suspension beyond one year will be subject to HFSRB approval.

Please confirm receipt and that this submission constitutes the required Notice of Temporary Suspension under Section 1130.240(d). Please advise whether any additional information, documentation, or filing steps are required.

Sincerely,

Timothy K. Egan
Chief Executive Officer
Roseland Community Hospital
